

# SUSA Point System

## Overview

Put simply, resources in Van Munching Hall are at a premium. The most constrained of all resources is room space. Due to limit on rooms, not every SUSA club will be given their first choice for meeting time. Therefore, in order to allocate resources to its member organizations, SUSA has developed a point system. Essentially, clubs will be given “points” when they demonstrate one of a variety of actions as explained below.

## Competition

Clubs will be ranked based upon the amount of points they accumulate over the semester. The club with the most points will be given special preference for their first choice of meeting time for the following semester. The club with the second most points will be the second club to pick room assignments and etc. The object is to reward clubs with the most points after each semester by giving them first choice in selecting meeting times for the following semester, as well as other benefits. At the beginning of every month at the President’s Meeting, SUSA will name a “Club of the Month” to the club that amassed the most points during the previous month.

## The Point System

Clubs will be rewarded with points by participating in any of the following
